County Record Office, County Hall, Carmarthen.

1966.

# PREFACE

This Handlist of the muniments of the ancient Corporation of Laugharne, which has been prepared by Mr M. C. S. Evans, B.A., Assistant Archivist, contains a description of the documents covering the period from about 1283 to the present day. Some of the records, particularised in the text, are still in Laugharne Town Hall or with Barclay's Bank, St Clears, and these I have included in the Handlist so that future historians will know the exact location of all the material. I have also included the Report (pages ii-ix) already submitted to the Corporation, so that all information relating to the muniments is contained in this one volume which, it is hoped, will serve as a practical guide to the officers of the Corporation as well as to historians.

The next stage envisages the compilation of a fuller schedule, and reports of progress will be submitted to the Corporation from time to time.

| e) Miscellaneous | 1704-1931 | 43-44 |

## Report on Laugharne Corporation Muniments.

The records of Laugharne Corporation were handed over to the custody of Major Francis Jones, the County Archivist, on Thursday, 17 March 1966. Alderman T. Fleming Williams, the Recorder of Laugharne, and Lieut Col R. A. Tucker were present.

Before the Record Office could begin the task of handlisting, a considerable amount of time had to be spent in cleaning and drying out the papers. Dampness had affected a great part of the collection, especially the legal papers — a small number of leases are now completely indecipherable and others are in a very fragile condition. Another decade or so and the corporation would certainly have lost more; their timely removal to the County Record Office has prevented this happening.

Several items listed below have either been retained by the Corporation or returned to their custody. Where this has happened, a note has been made in the handlist.

The following classification has been adopted in respect to the Laugharne Corporation papers.

1. Minute Books.
2. Burgess Admissions.
3. Legal material.

4. Financial material.

5. Correspondence.

6. Maps and Plans.

7. Miscellaneous sections.

1. Minute Books (Nos 1-10; 199-200)

This group consists of 12 volumes of the minutes of the Corporation, being a complete series from 1711 to the present day. Their historical value is such that they will form the basis of any treatise on the corporation from the early 18th century. These Volumes as well as containing a record of the proceedings of the Courts Leet and Courts Baron of Laugharne include a complete list of burgesses from 1711 to 1895 (the Burgess Roll from 1895 to the present day has been retained by the Corporation) and the names of the portreeves, common attornies, grand jurymen and various other officials of the township.

2. Burgess Admissions (Nos 11-35; 62)

This group of papers contains a complete series of burgess admissions from 1798 to 1959, with the exception of the year 1890. There are nearly 1400 admission forms, which have been arranged and bundled in chronological order. Each admission contains the name of the burgess

admitted, his qualification, the date of his swearing and the signature of the portreeve. A complete list of burgesses could easily be compiled by using the papers in this group, the lists that appear in the Minute Books and from the current Burgess Roll.

3. Legal (Nos 36-61; 63-65; 189-9)

(a) Leases (Nos 36-61, 189)

The vast majority of the legal papers in this collection consist of leases or copy leases granted by Laugharne Corporation. Many of these 480 deeds were very damp, but all but a few are now in a reasonable condition. Some are however still fragile and should be handled with care (Bundle 56); only two leases are indecipherable and beyond repair.

These deeds have been bundled and placed in chronological order. The handlist gives ther terminal dates and the names of the properties leased — the exact date, the name of the parties, the boundaries of the properties and the annual rental are refinements which will be included in the schedule.

(b) Other Deeds (Nos 63-65; 188)

This is a section of 37 deeds covering the years 1613-1950. Herein are a small number of valuable documents

relating to the township of Laugharne in the 17th century — those concerning the payment of the annual rent to the Crown being of especial interest.

4. Financial material (Nos 66-151; 190)

This section has been subdivided into the following categories.

(a) Rent Rolls and Rent Collecting Books (Nos 66-69)

This section consists of 79 items relating to the rents of houses and lands owned by Laugharne Corporation. They cover the years 1814-1935. Although not a complete series, there is sufficient material here to indicate the main sources of corporate revenue.

(b) Accounts of various officials (Nos 70-71; 73; 75)

These papers, take the story of the finances of the corporation back to the mid 17th century. The Portreeve's accounts cover the years 1650 to 1719 and those of the Common Attornies 1647 to 1888. Although there are many gaps in this series of annual financial returns, their historical value should not be underestimated.

(c) Cancelled Cheques etc (Nos 146-149)

This section relates in the main to the present century and is supplementary to other sources of financial material.

(d) Vouchers and Receipts (Nos 76-145)

These items, dating from 1723 to 1935, are a useful supplement to the annual accounts of the common attornies. Furthermore they give the historian the names and occupations of many Laugharne people in the 18th and 19th centuries as well as being a useful guide to the prices paid for merchandize and labour.

As far as possible the original bundles of vouchers — i.e. those relating to the financial year of the corporation — have been retained. The remainder of the loose vouchers and receipts have been placed in groups corresponding to the calendar year.

(e) Miscellaneous material (Nos 72; 74; 150-151; 190)

This section consists of individual items relating to the finances of the corporation that do not fit into the above pattern. These miscellaneous accounts date from the middle of the 17th century and include items relating to the poor of the township, monies in the corporation chest, Corporation land, arrears of rent, roads and the accounts of the corporation with the local banks.

5. Correspondence (Nos 153-159; 198)

All the correspondence in this group has been addressed to the corporation, covering the years 1812 to 1938. No copies of outgoing correspondence have been received at the Record Office.

Letters relating to the transfer and assignment of property, the appointment of agents or the renewal of leases have been placed in separate bundles. The remainder of the correspondence is of a general nature, the contents of which only a schedule will reveal.

6. Maps and Plans (Nos 193; 197; 206-210)

The outstanding item in this group is a Survey of corporation lands made in 1834. This volume contains maps of the various properties, a list of tenants, the acreage of the premises and a sketch of the town. Two other maps also show the extent of Laugharne Corporation's estates in the middle of the last century.

7. Miscellaneous sections relating to:-

(a) Constitution of Laugharne (Nos 165-171; 192; 204-5; 213)

This group of papers contains the original charter granted to Laugharne Corporation, and papers which illustrate the opposition of the township to the reform of Municipal

Corporations in the 19th century.

(b) Administration (Nos 173-175; 201; 203; 211-212)

The 8 bundles in this section are of great historical value to Laugharne. They include a 1561 account of the Hundred Court of Laugharne, 17th century exemptions from payment of the annual rent to the lord of the manor, presentments of the Grand Jury in the second decade of the 18th century and the 1595 Book of Survey of the lordship of Laugharne. It is from material of this nature that the story of Laugharne in the 16th and 17th centuries can be told. The Burgess Roll from 1896 to the present day has also been included in this section.

(c) Acts of Parliament (Nos 177-182)

These printed Acts of Parliament relate to the nation as a whole and not to Laugharne or Carmarthenshire. They date from 1817 to 1885, the years 1830 and 1853 being particularly well covered.

(d) Corporation lands (Nos 152; 160-163; 176; 184-187; 194)

Besides Land Valuation Forms and papers relating to the Tithe Rent Charge this section contains plans of corporation property and lists of their tenants as well as material illustrating the different but interesting nature of land tenure in this part of Carmarthenshire —

namely the rules of Hugdon, a share book of corporation property and agreements made by the shareholders in respect of new grants and of the use of their particular properties.

(e) Miscellaneous Material (Nos 164; 183; 191; 195-196; 202)

This last section covers the years 1704 to 1931 and contains 'inter alia' material relating to the proposed development of rail transport in the Laugharne - Pendine - St Clears area in the 19th century and Laugharne Public Weighbridge in the early decades of the present century.

# 1. MINUTE BOOKS

1711-1756

1 MINUTE BOOK of Laugharne Corporation, containing the presentments of the Grand Jury at the Courts Leet and the Courts Baron, lists of burgesses and the oaths of officials. Fragile
